SUMMARY

Cloud Administrator with hands-on experience in AWS services including EC2, S3, IAM, VPC, RDS, CloudWatch, ELB, and Auto Scaling. Skilled in incident troubleshooting, Linux administration, AWS CLI, Terraform (IaC), GitHub Actions CI/CD, Python, and SQL, with a focus on delivering secure, reliable, and scalable cloud solutions.

EXPERIENCE

Cloud Support Intern (AWS)

Oct 2025 – Jun 2026

Ossum Technologies Pvt. Ltd. — Remote

- Supported day-to-day AWS cloud operations, assisting with administration of EC2, S3, IAM, VPC, RDS, CloudWatch, Elastic Load Balancer, and Auto Scaling under guidance of senior team members.
- Performed cloud monitoring and basic troubleshooting of infrastructure issues, contributing to incident resolution and system reliability.
- Assisted with Linux server administration and AWS CLI operations to support deployment and configuration tasks.
- Supported backup management, access control, and cloud security best practices across AWS environments.
- Gained hands-on exposure to deployment support workflows, quickly adapting to new tools and cloud technologies.

Lecturer

Jan 2024 – Sept 2025

AISSMS Polytechnic — Pune, Maharashtra

- Delivered training in Python, SQL, and data analysis concepts, enabling students to solve real-world business problems using data-driven approaches.
- Mentored 100+ students on data projects involving data cleaning, exploratory data analysis, and model evaluation.

Data Engineer

Jun 2022 – Sept 2022

Neal Analytics (Fractal) — Pune, Maharashtra

- Analyzed and processed large datasets using SQL and PySpark to support business decision-making and reporting needs.
- Built and optimized ETL pipelines, improving data processing efficiency by 30% and ensuring high data quality.
- Debugged data pipeline failures and collaborated with cross-functional teams for timely incident resolution.

PROJECTS

Automated AWS Infrastructure Deployment using Terraform & GitHub Actions

Feb 2026 – Jul 2026

- Designed Infrastructure as Code (IaC) using Terraform to provision AWS VPC, EC2, IAM, Security Groups, S3, and CloudWatch resources.
- Built a CI/CD pipeline using GitHub Actions to automate Terraform validation, planning, and infrastructure deployment.
- Implemented reusable Terraform modules, variables, and outputs for scalable infrastructure provisioning.
- Reduced manual deployment effort through automated infrastructure provisioning and version-controlled cloud deployments.

Marketing Campaign Analysis & Customer Insights Dashboard

Sept 2025 – Dec 2026

- Analyzed marketing campaign data using SQL and Python by performing data cleaning, transformation, and exploratory data analysis (EDA) to evaluate campaign performance, customer engagement, and conversion trends..
- Conducted **customer segmentation** based on behavioral and demographic data, improving campaign targeting insights by 25%.
- Built an interactive Power BI dashboard to track and visualize campaign performance through KPIs such as conversion rate, CTR, customer retention, and ROI.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS (EC2, S3, IAM, VPC, RDS, CloudWatch, Elastic Load Balancer, Auto Scaling), AWS CLI, Linux Server Administration, Cloud Monitoring, Incident Troubleshooting, Access Management, Backup Management, Cloud Security.

Programming: SQL (PostgreSQL), Python (Framework-Django), Bash/Shell Scripting, Terraform (Basic).

Data Engineering & Analytics: ETL Pipelines, Data Cleaning & Transformation, Exploratory Data Analysis (EDA), KPI Analysis, Power BI, Excel.

EDUCATION

MIT Academy Of Engineering — Pune, Maharashtra

Master of Technology in Computer Science

| Sept 2025 – Aug 2027

PICT — Pune, Maharashtra

Bachelor of Engineering in IT

| Aug 2019 – Aug 2022
